

LITHIUM BATTERIES POWERED DEVICES*

Watt-hour rating calculation of one battery: $Wh = V \times Ah$

Non-exhaustive list

						BATTERIES CONTAINED IN DEVICE		SPARE AND POWER BANK BATTERIES (EXTERNAL TO A DEVICE) (1)			
						IN CABIN	IN CHECKED BAGAGES	IN CABIN	IN CHECKED BAGAGES		
With or without batteries			With batteries			> 160Wh					
							✗	✗	✗	✗	
Overboards	Self balancing wheel	Gyropods	Electric bikes	Major tools	Drones	Batteries					
≤ 160Wh (2)											
					Tools	Drones	Digital cameras	Tablets	laptops	Completely switched off	
											
				E-cigarettes, personal vaporizers and related items				On one's person			

* Defective or damaged or recalled devices or lithium batteries are forbidden for transport.
 (1) Spare and power bank must be individually protected to prevent short circuits.
 (2) - If energy ≤ 100 Wh, each passenger is permitted maximum: 15 devices and 20 batteries. Over this amount, prior approval from AIR FRANCE or KLM required.
 - If Watt-hour rating > 100 Wh and ≤ 160 Wh: maximum of 2 spare batteries and power bank per passenger.
 Mandatory prior approval from Air France or KLM for the device and/or batteries. Please contact your travel agent or call Air France call center at 3654 (France) or +33 (0) 892 702 654 (international). For KLM, call +31 (0) 20 47 47 747
